

Map Your Neighborhood Train-the-Trainer

October 22, 2014

In a disaster, your most immediate source of help is the neighbors living around you.

“Map Your Neighborhood” is a program designed to help neighborhoods prepare for disasters. It is offered through your local county or city Emergency Management Office.

PROGRAM SYNOPSIS

- Learn the 9 steps to take immediately following a disaster.
- Identify the skills and equipment inventory each neighbor has that are useful in an effective disaster response.
- Create a Neighborhood map identifying locations of natural gas and propane tanks and identifying those neighbors with specific needs.
- Work together as a team to evaluate your neighborhood after a disaster and take the necessary actions.

PROGRAM STRUCTURE

- Start a neighborhood group by attending a 2-hour MYN Train-the-Trainer session, which provides you with important information on how to effectively facilitate a neighborhood meeting, details the **9 Steps to Take Immediately Following a Disaster**, and answers any questions or concerns you may have.
- Once trained, you may order the MYN Program materials through your local county or city Emergency Management Office. These materials include the MYN Neighborhood Handout Shingle, a Discussion Guide, CD and DVD, which contains several forms, resources and information.
- After facilitating a MYN team, fill out the MYN Postcard and send it to your county or city Emergency Management Office. This will allow them to track the number of teams and evaluate the program.

Map Your Neighborhood Train-the-Trainer
Wednesday, October 22, 2014 ~ 6:00 pm ~ 7:30 pm
Thurston County Emergency Coordination Center, Policy Room
9521 Tilley Road SW, Olympia, WA 98512
